

Automatic Side-Seal Strapping Machine

The SQ-800Y with brushless DC Motor is a side-seal model which boasts all of the advanced features of the SQ-800 such as self-loading, refeed and loop ejection.

■ Wide Adaptability to Fully-Automated Packaging Line

The machine fits any existing or proposed conveyor system, adapts to any conveyor height and requires no special equipment.

Several options are available to make it easy to integrate the SQ-800Y into a conveyor system. Larger arch sizes offer a wide range of applications, particularly for large and heavy packages.

■ Strapping Speed

Standard strapping rate is 50 straps/min, even when tension is applied. The machine is ready to operate in less than 25 seconds, contributing to increased packaging line efficiencies.
